

Pre-ordering your children's school meal

Our school is aiming to become cashless. As part of this process, all lunches can be picked & paid for in advance through Parent Pay.

You will receive login details soon & you will be able to access on www.parentpay.com/parents

Any information that we have on your children's food allergies & intolerance's will be logged on the system & you will not have any meal choices that include these allergens.

We have planned our menus to ensure that they provide the children with a high standard of quality ingredients & nutrition. When you pre-choose their meals with them, it will increase their knowledge on various food.

If your child is in reception or KS1 and therefore entitled to a free school meal every day, you will still need to log in & pre-select on Parent Pay, but no payment will be required.

You are able to logon to the system and any time , upload money and pre-order lunches for weeks in advance. Have peace of mind that your child is benefiting from a nutritious school dinner every day
